

SKE Society's  
 Govindram Seksaria Science College, Belagavi  
 Conducted a joint activity in association with MoU institution Mhadei Research  
 Center, Chorla, Belgaum

Details of the Activity

**Title: Stargazing Night-out**

Date(s) of event: 9th March 2019

No of participants: 47

In Collaboration with: In association with Makerspace Belgaum and Mhadei Research Center

Highlights of the Activity:

A stargazing night-out was organised in Western Ghats near Chorla. This provided perfect ambiance and crystal clear, pollution free night sky for all night sky observation. 26 students and 21 staff members were a part of this event. We enjoyed mesmerizing views of following ...

- Planets Jupiter, Saturn, Venus, Mars
- Constellations Ursa Major, Ursa Minor, Orion, Taurus, Canis Major, Scorpion, Hydra, Leo, Virgo, Pleiades
- Other objects/Asterisms Orion Nebula, Winter Hexagon, The spring Triangle,
- Big dipper, Messier objects near constellation of scorpius – M6 and M7

Students tried their hands on astro photography and could capture amazing view of Milky way and some constellations.
