POLICY DOCUMENT
ON
ENVIRONMENT AND ENERGY USAGE

IQAC Co-ordinator
GSS College, Belagavi

PRINCIPAL
G.S.Sc. College, Belagavi

GSS Collage, Belagavi is committed to manage energy in such a systematic way so as to minimize its impact on the environment. The Environment and Energy usage policy of GSS Collage, Belagavi implies to explore the renewable energy resources to reduce the burden of the government and to find out substitute natural resources as solutions to the energy crisis.

This environment and energy policy is binding for all the components of the institution and applies to all its participants and to the various activities undertaken by the institution. It will help us to implement efficiency and environmental awareness into our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage.

Policies:

- To assess our energy usage and measure its impact on the environment.
- To install solar panels for the generation of alternate energy.
- Activate power management features on the computer and monitor so that it will go into a low power "sleep" mode when you are not working on it.
- Turn off your monitor when you leave your table. Whenever possible, shut down rather than logging off.
- Turn off unnecessary lights and use daylight instead.
- Use LED or compact fluorescent bulbs as much as possible.
- Switch off lights, fans in conference rooms, classrooms, lecture halls when they are not in use. Avoid the use of decorative lighting.
- Use the fans only when they are needed.
- In hostels install the water heaters with non-conventional energy resources.
- Stick name plate besides every switch board showing switch off button when you leave.
- To reduce local air pollution emissions using bicycles, public transportation and use of pedestrian-friendly roads.
- To undertake tree plantation drive.
- To take additional measures to continuously improve our energy consumption.
- To encourage use of advanced technology to minimize energy consumption, atmospheric emissions and noise.
- To engage in dialogue with the government agencies, municipal corporation and the affiliating university and actively work with the local organizations in the areas of environment, energy efficiency and sustainable development.

- To monitor and respond to emerging environmental and energy issues. To strengthen our employees' and students' environmental knowledge and skills in order to improve our own environmental performance.
- To provide information and training opportunities on energy saving measures.
- To offer opportunities for employees and students to engage in initiatives which contribute to environmental protection.

This policy will be communicated to all the employees via internal communication channels, and will be made available on the college website.
