Two days' workshop  
on

### **“ADVANCES IN SOLAR SCIENCE: TECHNOLOGY AND INNOVATION”(ASSTI-2022)**

**Dates: 2-6-2022 and 3-6-2022**

For most organizations, the two largest energy consuming sectors are commercial buildings and fleet vehicles. The major challenge is to maximize energy efficiency while maintaining a comfortable environment that promotes occupant productivity, satisfaction and well-being. These can be achieved to a large extent by harnessing different renewable energy sources.

Because of the government's mandate as well as to reduce the carbon footprint, industries all over the country are rushing to establish startups for setting up Solar power generation and its allied services. Solar power generation, distribution and utilization involve a number of processes. Maximum energy efficiency requires properly designed materials, modules, and associated hardware.

To make the younger generation aware about the opportunities and challenges in the solar industry field, Physics department of SKE's GSS College organized a National Workshop on **“ADVANCES IN SOLAR SCIENCE: TECHNOLOGY AND INNOVATION”** on 2<sup>nd</sup> and 3<sup>rd</sup> June 2022 by inviting eminent people working in this field. The workshop was conducted in Hybrid mode for the first time in the college.

The workshop was inaugurated by Shri Kiran Thakur, Chairman, SKE Society. Prof. P. S. Patil, ProVC, Shivaji University, Kolhapur, an eminent scientist ranked amongst the top 2% in the research field delivered the keynote address in virtual mode. He talked about the preparation methods and properties of materials required for harvesting solar energy.

The first invited talk in the technical session on “Solar Technology, Future and Job Potential” was given by Mr. Praful Roogi of “MAGNUM TECHNOLOGIES, Bangalore”. The second technical and interactive session addressed by Shri Dhananjay Patankar, from “TATA POWER” focused on “Solar energy scenario, Opportunities and Challenges”, which was followed by poster presentations by student delegates. A total of 12 teams participated in the poster presentation competition.

On the second day, again two technical sessions were conducted, one from industry and the other from academia. Shri Rounak Sheri, CEO of “EFFICIENT ENERGIES”, Belgaum discussed about “Insights on Solar Power” and job opportunities in the field. The second technical session “Energy Storage” and the research methodologies, was delivered by Dr. K. K. Sharma, Director, School of Nano science and Technology, Shivaji University,

Kolhapur. This was followed by an exhibition of various devices employing solar energy such as solar heater, solar vegetable drier, solar panel cleaner (Manual), mini robot solar panel cleaner, solar tracking system, etc.

The valedictory function was presided over by Mrs. M. M. Shanbhag, Vice Chairman, G.S.S collegemanaging committee. Dr. K. K. Sharma addressed the delegates and appreciated the efforts of the organizers for focusing on skill development through the workshop. He also gave away prizes to two teams for securing first and second place in the poster competition.

A total of 130 student delegates and 30 faculties participated and benefitted from the workshop. The department is thankful to SKE Society for the encouragement and financial assistance. I am grateful to our principal, Shri B.L.Majukar for his wholehearted support. I also thank all the members of the organizing committee for their efforts in making the workshop successful.

### GEOTECTONICS-2023

#### Report

Department of geology conducted intra-class event "GEO-TECTONICS 2023", *learn with fun..* on 28 and 29 July 2023. The event was in its 7<sup>th</sup> consecutive year and one of the best practices of the department which provides a great platform for students to express their talent. Event consist of various competitions such as debate, quiz, presentations, treasure hunt, poetry, essay, drawing etc. based on 'Geology' theme. By considering recent trends among students two new events were added i.e. documentary and reels where all B.Sc. geology students participate wholeheartedly for two days. Event has contributed significantly in creating curiosity and interest about the subject. Groups were created consisting of all semester students. Every group competed in above events Eight groups consisting of 10 to 12 students participated and competed for general championship. Winners were awarded with certificates.
